peopleologie

The San Bruno 4-H Club and peopleologie are offering two FREE summer workshops!

Saturday, July 14th, 1pm: PAPER MAKING & SEED PAPER MAKING

The most fun and natural integration of ecology, science, art, and history! Based on the 2,000 year old Asian practice and invention, you become part of the entire process of reusing old to make new from beginning to end--tearing paper, blending pulp, and pulling your own sheet of paper to take home. Add seeds and take seed paper home to plant.

Saturday, August 25th, 1pm: GARBOLOGY / FANTASTIC TRASH

Take a slide show/field trip around the world and then dive into our own recycling bins to rescue all sorts of discarded items to transform into something wondrous and new. Put your building, taping, joining, and simple engineering skills to work to create ART! It's a trash-formation!

Space is limited. Register here to secure your spot:
